STRATEGIC PLAN PROCESS

The strategic planning process is a systemic and collaborative process which establishes the future direction for the Behavioral Health Network (BHN) and translates our collective vision into specific achievable goals and objectives.

In 2021, BHN conducted strategic planning using a model that focuses on:

- ⚙️ Input provided by 85 members, partners and other stakeholders;
- ⚙️ Intentional articulation of vision, values, mission, and strategic direction; and
- ⚙️ Achievement of alignment at all levels of the organization.

The result of the planning process is that BHN is clear about its strategic direction, goals, and objectives; is aligned with the mission and vision of the organization and has a process in place to ensure the organization is managing change and continuously planning.
