

IMPACT STATEMENT FY 2022

Program Overview: Since 2012, Hospital Community Linkages (HCL) has focused on enhancing transitions from hospital inpatient care to the region's safety net Community Mental Health Centers (CMHC). The HCL Inpatient project seeks to expedite access to care, strengthen engagement in services, and increase admission into longer-term, recovery-focused services and supports within CMHCs.

719 referrals made to HCL in FY22 and 9226 referrals since program inception.

73% of referrals were scheduled for appointment with CMHC

Of the 194 not scheduled, **68** were reconnected to their CMHC at referral, **11** had an alternative connection to services.

Key Impact Areas

Appointments

525 Appointments were scheduled in FY22. 436 clients kept their appointment with a CMHC. (1% decrease from previous year)

Percentage of Appointments Kept with CMHC

Admission

Participating agencies had admission rates into longer-term community mental health center services of 5%-92% (average = 59%; FY22 goal = 85%)
